

**REMARKS**

The specification has been amended in order to correct an obvious typographical error with respect to the identification of the Table in which results are reported. A review of the Figures 1-6 and Table 2 shows that the results reported in Table 2 corresponds to the results of Figures 1-3 rather than those of Figures 4-6. The error is an obvious one and no new matter is introduced by the forgoing amendment.

The Abstract of the disclosure is identical to the abstract found on the cover of the published PCT application from which the present application is derived, and it finds support throughout the application. The abstract is already included in the substitute specification that is concurrently filed in response to the Notice to File Corrected Application Papers.

Should the Examiner wish to discuss any issues of form or substance in order to expedite allowance of the pending application, he is invited to contact the undersigned attorney at the number indicated below.

Dated: November 21, 2003

Respectfully submitted,

By Mark H. Hopkins
